

## Technical Rider

### **Sebastian Habben – DJ**

It is very important that you meet the requested equipping and technical requirements. Otherwise a good performance is not guaranteed! The artist can refuse to play if low technical circumstances do not allow him to play his performance on usual niveau.

#### **Sebastian Needs:**

- Stereo (!) Monitoring
- Mixer Allen Heath Xone 92
- 2x Technics SL 1210/1200
- 2x CD Pioneer CDJ-2000

#### **Monitoring:**

Stereo monitoring with individual amping! (2x PS 15 works fine).

Not just one speaker left or one right. One speaker to his left and one to his right side.

#### **Support During Performance**

A regular DJ performance should be 3 hours. A supply of cold drinks (water, beer), maybe some fruits and snacks, and private access to a toilet are factors that make a lot of things easier and enhance the performance.

If there are any technical questions don't hesitate to call us:
